Binding feedstock supply agreement signed with Wogen Pacific

- Binding agreement with Wogen Pacific secures natural graphite concentrate feedstock for the Collie Micronising Facility in Western Australia.
- Allows IG6 to start and scale up processing without the upfront capital spending and operating risks of mining.
- Provides the pathway for IG6 to build out our processing operations and markets whilst developing the Springdale graphite mineral resource in Western Australia.

International Graphite Limited (**ASX: IG6**) announces it has signed a binding graphite concentrate supply agreement with Wogen Pacific Limited (**Wogen**) to supply feedstock to the Company's Collie Micronising Facility in Western Australia.

The agreement is a key pillar in the Company's mine to market strategy enabling the commencement of operations at the Collie Micronising Facility without the capital expenditure and operational risks of mining.

Wogen has extensive experience trading graphite concentrates and has established deep relationships with mining operations globally. Much of the graphite processed at the Collie R&D and Qualification Facility has been secured by Wogen.

Managing Director and CEO Mr. Andrew Worland said: "The agreement secures feedstock for our Collie Micronising Facility from established and reliable producers. Wogen, in effect, will act as IG6's sourcing arm while we build our processing operations."

"Existing natural graphite concentrates supply and existing unutilised mining capacity in Europe, Africa and Brazil will support the start up and seamless expansion of our processing plants in Western Australia and Italy and provide the most efficient path to cashflow for shareholders."

The agreement has a three year term from first supply and can be renewed for a further two years and thereafter a rolling six month period. Feedstock prices will reflect market conditions existing at the time of order.

By building out the processing operations, IG6 is creating the internal conditions to develop the Springdale graphite mineral resource as a source of feedstock supply.

Authorised for release by the Board of International Graphite Limited.

About IG6

International Graphite Limited (ASX: IG6, FWB: H99) is establishing mid-stream graphite processing operations in Australia and Europe to supply advanced industrial graphite products for established markets seeking secure and reliable alternatives to traditional supply chains. Through the Collie Micronising Facility in Western Australia and the Alkeemia / IG6 Joint Venture at Porto Marghera, Italy, the Company is developing a capital-efficient graphite processing platform, supported by proven technologies and industry partnerships. The platform is designed to serve growing demand from industrial, energy storage, advanced manufacturing and defence applications. IG6 also owns the globally significant Springdale Graphite Project in Western Australia, providing long-term feedstock optionality for future scaling of process operations. Strong support from the Australian and Western Australian Governments reflects IG6's significance to national critical minerals capability and regional economic diversification.

Forward-looking statements

Certain statements in this announcement relate to the future, including forward-looking statements relating to the Company and its business. Forward-looking statements include, but are not limited to, statements concerning International Graphite Limited planned business activities and other statements that are not historical facts. When used in this document, the words such as "could", "plan", "estimate", "expect", "intend", "may", potential", "should", and similar expressions are forward looking statements.

These forward-looking statements involve known and unknown risks, uncertainties, assumptions, and other important factors that could cause the actual results, performance or achievements of the Company to be materially different from future results, performance or achievements expressed or implied by such statements. Actual events or results may differ materially from the events or results expressed or implied in any forward-looking statement and deviations are both normal and to be expected. Neither the Company, its officers nor any other person gives any representation, assurance or guarantee that the events or other matters expressed or implied in any forward-looking statements will actually occur. You are cautioned not to place undue reliance on those statements.
